

# Mental Health in the Workplace: Needs of patients & Challenges for Employers

*Preliminary results of the  
GAMIAN Europe Survey*

**Rebecca Müller, Secretary General of GAMIAN-Europe**

European Parliament, 29 May 2013

# PATIENT SURVEY ON MENTAL HEALTH AND WORKPLACE: OVERVIEW

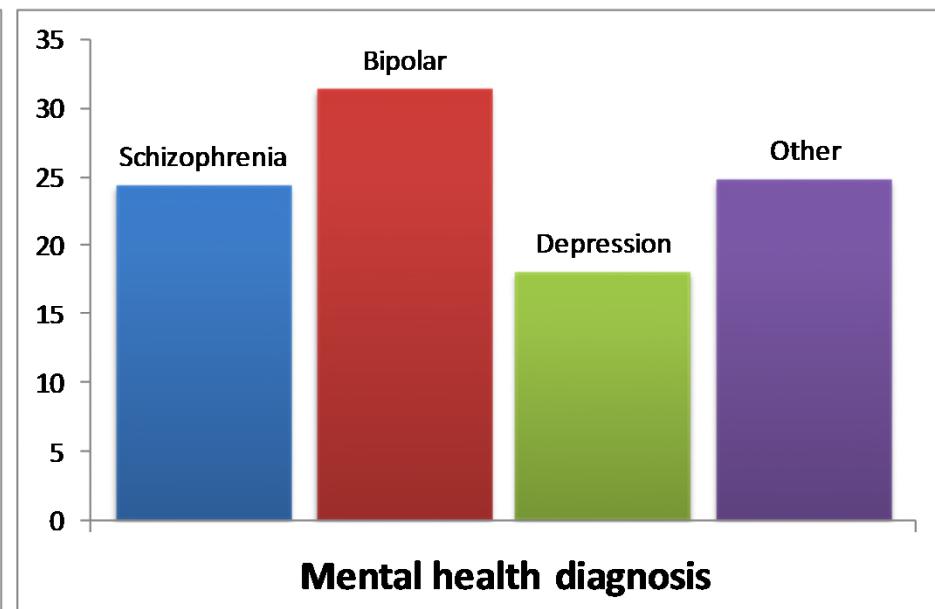

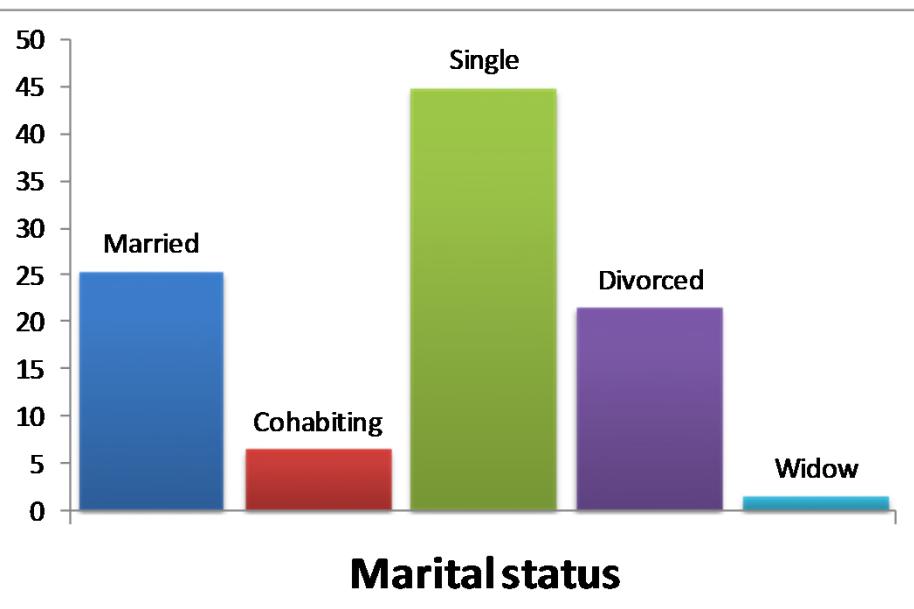

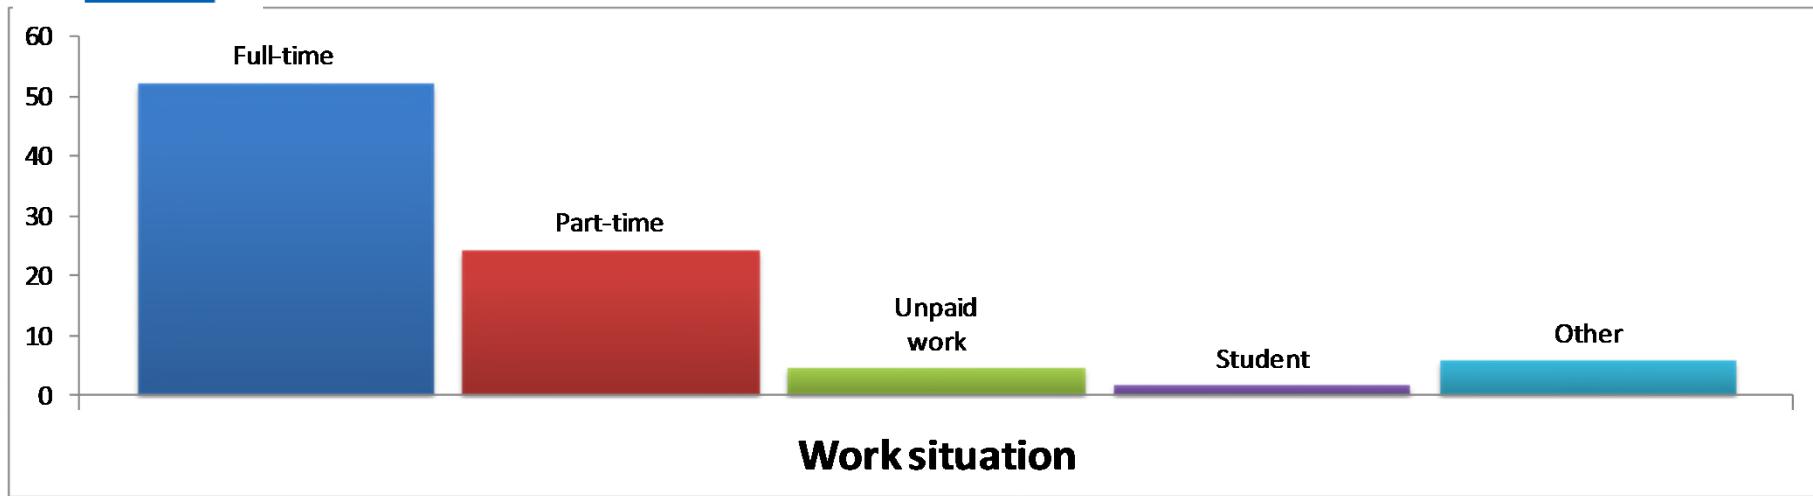

Ongoing survey of GAMIAN-Europe **on the needs of patients regarding Mental Health and the Work Place.** This project is supported by a non restrictive grant of Janssen & Lundbeck.

## Survey methodology & aim:

- The aim will be to recruit a total of 1.000 responses. At the moment **385 responses** have been received.
- The survey questionnaire was **translated into 21 languages** in order to allow respondents to answer without any barriers.
- Respondents will be contacted **by the GAMIAN member associations** in 20 European Countries
- The survey is **accessible online** on the GAMIAN website, [www.gamian.eu](http://www.gamian.eu) and on the GAMIAN Facebook, Twitter and Linked-in accounts.
- The project is supervised by a Scientific Steering Committee: Pedro Montellano, Rebecca Muller and Hilkka Kärkkäinen (for GAMIAN-Europe), Prof. Chantal Van Audenhove (LUCAS -University Leuven Belgium), David Mouyal and Laura Dobell
- Results will be communicated at the GAMIAN-Europe annual convention in Vilnius (Lithuania) 19/21 September 2013.
- Contact: Paul Arteel , executive director GAMIAN, [executive.director@gamian.eu](mailto:executive.director@gamian.eu)

# PATIENT SURVEY ON MENTAL HEALTH AND WORKPLACE: RESPONDENTS PROFILE

## PATIENT SURVEY ON MENTAL HEALTH AND WORKPLACE: WORK LOCATION & ABSENCE

Up to **50%** of respondents are employed in a small company (1-50 employees) and only **20 %** work in a large company with more than 250 employees.

**52%** of respondents had to stay home from work between 10 and 99 days due to mental health problems. **17%** were absent up to 9 days and another **17%** never were absent from their jobs.

# PATIENT SURVEY ON MENTAL HEALTH AND WORKPLACE: UNHAPPY NOT TO WORK

For **62%** of respondents not being able to work is a more or less permanent situation.

**23%** of respondents are happy with this situation and have accepted that they will probably never be able to work again due to their mental health problems.

**40%** of respondents are unhappy with this situation and would like to get back to work.

# PATIENT SURVEY ON MENTAL HEALTH AND WORKPLACE: BARRIERS

For **45%** of respondents their symptoms make it impossible to go back to work!

**17%** of respondents are convinced that their former employer does not want to have them back.

**24%** of respondents are afraid to have a relapse if they return to their former job.

# PATIENT SURVEY ON MENTAL HEALTH AND WORKPLACE: INFORMATION & CONSENT

**32%** of respondents did not tell their employer about their mental illness, because they were afraid that this would not be understood. They fear discrimination and the loss of their job.

**24%** of respondents had no choice in not telling because on their medical attestation the name of a psychiatric clinic was mentioned.

**21%** of respondents decided themselves that they wanted to tell their employer about their mental health problems.

# PATIENT SURVEY ON MENTAL HEALTH AND WORKPLACE: CHALLENGES & NEEDS

- More than half of the respondents believe that better training of the HR Department and a good support from a medical professional would have helped them to keep their work !

**=> important challenge for the professional !**

- 55% of respondents think that a change in attitude of the management is needed.
- 58% of the respondents think that a change in attitude of their colleagues would have been very helpful to them.
- 52% of patients needed more support from their families and think a change in attitude would have been helpful.

**=> fighting stigma and increasing understanding of mental health issues with decision makers, managers and the general public!**

# PATIENT SURVEY ON MENTAL HEALTH AND WORKPLACE: KEY POINTS

- Need for **effective treatments** to ensure sufficient symptom reduction so that people can work again and keep their jobs!
- Increase quality of life. **A good life quality includes work !**
- More and effective **programs for people with mental health problems to find work** and keep their job. 40% of those people with mental health problems, who no longer work are unhappy about this situation!
- **Respect the privacy of patients!** People should not be forced by practical circumstances to come out about their mental health problems at work or in any other circumstances.
- **Fight stigma & change attitude** of managers and employers!

The screenshot shows the 'Workplace and Mental Health' survey page. At the top, there's a banner with the GAMIAN-Europe logo and a call to action: 'Do what you can, with what you have, where you are'. Below the banner is a menu with links like 'Home page', 'About us', 'Member's Activities', 'Reported', 'Mail', 'Units', 'Help', and 'GD Awards'. A sidebar on the right features three small photos of people in professional settings. The main content area contains a table with country flags and survey links:
